TERMS OF SALE

1) A 10% buyers charge will be added to the hammer price of each lot purchased.
2) All bids are per lot as numbered in this catalog.
3) We reserve the right to withdraw any lot prior to sale.
4) All successful bidders shall be billed for postage, handling and insurance.
5) SMYTHE reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
6) A SMYTHE auction bidder expressly waves any claim or right to an accounting, damages or compensation arising out of SMYTHE's failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
9) In the case of a tie between a mail bidder on the book and the floor, the mail bidder shall take precedence.
10) All bids must be in whole dollar amounts; this includes percentage increases.
11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot number listed. Make sure your sheet is signed.
12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1 1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their bids in advance.
14) Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.
15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in New York City as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.
16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
17) SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3)Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
18) In the event of a dispute, the auctioneer's decision is final.

GUARANTEES AND RIGHTS OF RECOVERY

19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. SMYTHE reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraph 5 and 15 above.
21) All material in this catalog is guaranteed to be genuine unless otherwise described.
22) No lots may be returned by floor bidders except for non-authenticity.
23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale), notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
25) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE's legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.
26) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
27) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
28) All accounts are payable to SMYTHE in U.S. funds and remittance must cover the service charges for foreign drafts which shall be added to each invoice. No credit card payments will be received by SMYTHE for auction sales, catalogs or other monies due to SMYTHE.
29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

CONDITION TERMINOLOGY FOR CURRENCY

Gem Unc. (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.

Choice Unc. (Choice Uncirculated - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.

Unc. (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.

Choice AU (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.

AU (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.

EF (Extremely Fine) - An item which may, at first glance, look uncirculated but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.

VF (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.

F (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.

VG (Very Good) - A well circulated item, complete, unimpaired except for petty edge splits, pin holes, some surface splitting along heavy folds and soiling.

Good (Good) - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.

Fair - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.

Poor - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.

Abt (before a grade) - A shade below the grade it preceeds.

Plus or + (following a grade) - A shade better than the grade.

VF-EF (hyphen between grades) - The grade is about halfway between the two grades shown.

VF/Good (slash between two grades) - Face and back are two different grades. The grade preceeding the slash is for the face. The grade following is for the back.

ABOUT OUR ESTIMATES

The estimates included are our very conservative opinion as to what we feel the lot will bring. However, prices realized may be higher or lower depending on wholesale and retail market conditions at the time.

A WORD ABOUT RESERVES

While the bulk of the items in this sale are unreserved, items indicated by an "*" in front of the estimate are reserved at the lower price indicated. For example, an item with an estimate of *(25-Up) is reserved by the consignor at $25. If there are no mail bids for the reserve price or greater, the lot will be opened to the floor bidders at the reserve price. If there is no bidding response, then the lot will be "passed."

Where non-published reserves exist, the auctioneer may make bids in response to others. R. M. R.M Smythe & Co. has advanced money to consignors, where requested. In addition, R.M. Smythe & Co., Inc. has agreed to advance money to purchasers who have established credit in advance.

Associating himself with James Fisk and Daniel Drew, he struggled with Cornelius Vanderbilt for control of the Erie RR. Gould also conspired with Fisk in an attempt to corner the gold market thus causing the Panic of Black Friday on September 24, 1869. By 1886, Gould was in virtual control of the New York City elevated railways, and the Western Union Telegraph Company. He left a vast fortune to his son George Jay Gould.

Henry Huddleston Rogers (1840-1909) was a financier, known as the mastermind of Standard Oil interests. He originated the concept of pipeline transportation. 1034 STANDARD OIL (OH) 1877. **598 shs.** #130. Capitol Building. Woman with flag and sword, lower left. Cancelled across in rd ink. Issued to **John D. Rockefeller** as trustee and signed **thrice** by him, as president, on attached stub and on verso. Also signed **twice** by **H. M. Flagler** as secretary. **(Photo)** **($10,000-Up)**

Unlike previous Standard Oil certificates offered, this certificate offers three superb signatures of J. D. Rockefeller, and is extensively filled in by H. M. Flagler in his hand (text & stub) including his name on stock power at the back aside from his signature as secretary. Highly unusual and desirable autographed financial document; an ultimate collector's choice!

John D. Rockefeller, 1839-1937, started his business career as a bookkeeper. By age 19 he was a partner in a produce business. He began operating a small refinery business with his partners and became alerted to the growing investment possibilities in that fairly new industry. In 1870, he organized the Standard Oil Company of Ohio and proceeded to achieve control over 90% of the oil refineries in the country. Rockefeller had little interest in discovering oil. He left that to wild catters and other speculators. He concentrated on the transportation, distribution and sales of petroleum products, building a fortune estimated at over a billion dollars at the time of his death. In his later years, Rockefeller contributed great sums of money to schools and institutions including the University of Chicago, the Rockefeller Foundation and the Rockefeller Institute for Medical Research.

In 1888, a Federal Committee on Manufactures investigating the Standard Oil Trust concluded the following:"...the Standard Oil Trust agreement was a slippery device for evading responsibilty." Although they felt certain that refined oil prices were being fixed, the committee was powerless to pursue punitive action against the trustees who swore "they had nothing to do with the business operations of the separate concerns. They simply held the stocks of the various corporations, exercised their rights as stockholders, received and distributed dividends." In 1892, however, the trust was ordered to liquidate.

Jabez A. Bostwick maintained a large export house, a refinery on Long Island and terminal facilities in New York Harbor. Also instrumental in making Standard Oil a giant.

J. PAUL GETTY'S FATHER

1063 **GETTY, GEORGE F.** Father of J. Paul Getty and originator of the family's mercantile interests. **($400-Up)**

This extraordinary lot tells the story of insider dealings and possible double dealings of several companies in Minneapolis, where J. Paul Getty was born December 15, 1892.

At that time, George F. Getty was involved in the National Savings & Loan Association, which had its beginnings as the Railway Building & Loan Association. The company sold stock and bonds on multiple payment plans, and salesmen were given territories in which to promote the securities. One such salesman's contract is included, signed by George F. Getty as Secretary of the company. Apparently, things went badly, as there are angry letters of complaint, receiver's requests, and a variety of other correspondence and surrounding literature which tells the somewhat sadder story of the days before one of the world's great fortunes. Wander through yesteryear and see how it all fits together.

A number of the documents are signed by George F. Getty, and the lot includes 8 examples of stock certificates of Northern Savings & Loan Association, made out to the important figures in the story, one of which is signed by Getty. There are also two bonds, one signed by **John T. Getty,** who also signed all the coupons, and one signed similarly by George F. Getty.

We suspect this material is quite rare, yet very interesting. [27]

John Charles Fremont (1813-1890) was an army officer, explorer, and one time Presidential candidate. In his youth Fremont surveyed the route of a potential railroad between Charleston and Cincinnati, but this probably has little to do with this 12.5-mile route from Cincinnati to Sharon. Fremont blazed paths to the West, including the famous "Oregon Trail". His huge estates and the discovery of gold in California made him rich. Served briefly as one of California's first senators. In 1856 his wide popularity and antislavery opinions won him the Republican nomination.

1221 CHICORA IMPORTING & EXPORTING (SC) 1863. One share. No.147. Endorsed across the face as having $60 paid on it in 1869. (Photo) ($400-Up)

Although there is no imprint, the certificate bears a strong likeness to the work of Evans and Cogswell. The company, along with several others was belatedly chartered at the end of 1863 by the South Carolina legislature. The high price of the shares, $1000 per share, reflected the 20. 1 depreciation of the Confederate currency of that time. While supposedly such firms made great profits, the losses incident to the business and the Union seizures after the war, either occasioned heavy losses or purely nominal profits.

1368 **ARKANSAS & TEXAS LAND** (NY-TX) 1831. **One Scitio (4428.42 acres)** of land, granted to John Enrico. **(Photo)** **($400-Up)**

The land grant was along the New Mexico border north into the panhandle. Such grants, originally from the Mexican Government to T. L. In the 1920's the Klan took over Indiana, ruling it ruthlessly by murder and corruption. The power of the Klan was destroyed in 1928 and its leaders were sent to prison on various charges. The Klan's activities led to the bitter 1924 Democratic Party convention where liberals sought to condemn the Klan and its supporters fought bitterly to prevent a hostile resolution.

1372 **MARITIME CANAL OF NICARAGUA** (US) 1897. **6 shs.** ABN. **(Photo)** **($200-Up)**

This company was formed in the 1890's to build a canal through Nicaragua in lieu of that had been partially built by the French in Panama. The capital of $100 million was inadequate, while the United States Congress dithered in indecision, helped along by the Colombia Congress and the off and on again attitude of the French. In 1902, the Nicaraguan Post Office put out a stamp with a smoking volcano on it and the representatives of the French Panama Canal Company, used that blunder to sell the Americans on the idea that a Nicaraguan canal would be in a volcanic and earthquake zone (true enough) and thus much too dangerous a place for so important a work. The Americans therefore pursued the Panama scheme to its conclusion in the 1903 revolt against Colombia and the Canal treaty later the same year.

This firm was created to build a harbour at the mouth of the Brazos River by opening a canal from Galveston Bay to the mouth of the River. The project never seems to have been completed, although some harbor improvements were made to the river to handle the cotton shipped down it.

The Boston, Hartford & Erie RR, financed by a group of Boston financiers headed by Eldridge, was organized to build a railroad from Boston to Fishkill, NY, a distance of 300 miles. It was to connect with the Erie RR to bring Erie coal to Boston. Unfortunately, the group ran out of money to complete construction. They went to the directors of Erie RR for aid, a move which gave way to the "The Fight for Erie", one of the biggest stock market battles Wall Street had prior to the turn of the century (Gould vs. Vanderbilt for control of the Erie Railroad Company).

This interesting financial/historical element coupled with an absolutely attractive appearance makes this bond a great collectible as well as a beautiful display piece.

As early as 1843, private interests tried to promote a railroad along this line, but private funding could be raised only for an abortive canal venture. The state became involved in 1853, appropriating funds for the building of five railroads, including the 75-mile Iron Mountain RR. This bond was issued to secure completion of the road.

In 1938, when CTR became IBM, American Bank Note Company was asked to prepare IBM stock certificates. 3779 UNITED KINGDOM OF GREAT BRITAIN & IRELAND GOVERNMENT 1916. $10,000. 5-1/2% Gold Three-Year Note, Cs, purple, black. Old man by the sea. Royal arms. ABN. (Photo) ($350-Up)

By 1916, Great Britain's gold and foreign exchange reserves were exhausted and there remained an urgent need to purchase munitions in the United States. With the help of the House of Morgan, and also the Guaranty Trust Company (later to be merged into J.P.Morgan as the Morgan-Guaranty Bank), the British floated a number of loans, totaling over $850 million. In the period of disillusion following World War I, it was claimed that the American bankers, particularly Morgan's together with the "Merchants of Death"-the arms makers, had pressured the United States to enter a war in which it had no real interest at stake, solely with a view to inducing the U.S. Treasury to lend money to Britain, which that nation could then use to pay off these bonds.

A Rare and Historical bond issue.

EXTRAORDINARY HAWAIIAN BOND GROUP

3784 KINGDOM OF HAWAII 1882. $1000. 6% 5/25-Year SPECIMEN bond, Cu, green, black, red numbers. Royal arms at the center; King William Lunalilo (1873-4), left; Queen Kapolani on the coupons. Fold splits. ABN. POC.

This bond was prepared for an issue of $200,000; we know of none that were issued. We think it unlikely many specimens were made, some for Hawaiian use, the rest for ABN.

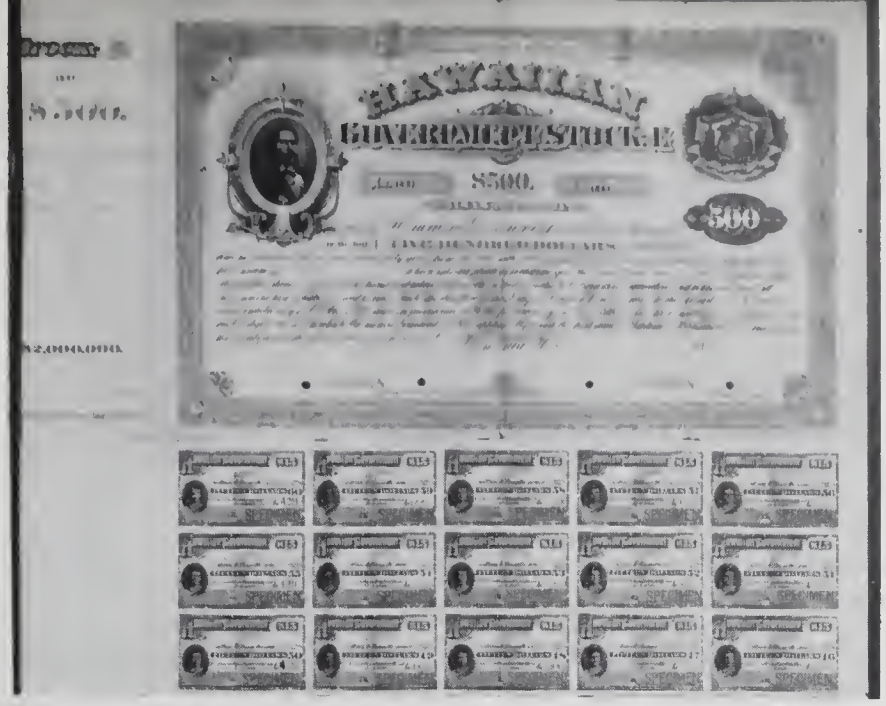
The Kingdom of Hawaii was founded by Kamehameha I who conquered three other realms by 1795. His descendants consolidated their rule and until 1872 ran an efficient government. However, American investments grew, the famous missionaries as the phrase goes, came to do good and stayed to do well. From 1875 onward, the royal family and the Americans became embroiled in a power struggle, the crown trying to protect the natives and its own powers against exploitation. A coup was carried out in early 1893, with help from the U.S. Marines and a republic installed. This was annexed in 1898.

This is a great rarity, clearly worthy of a solid four figure price. (Photo) ($1000-Up)

3785 KINGDOM OF HAWAII. August 5, 1882 (as last). $5000. Cu bond, blue, black. Minor fold splitting. ABN. POC.

The vignettes are similar to the preceding, but King David Kalakaua 1875-1891 appears on the coupons. This king launched a program of recovering his power over the operations of his own government. He revived the hula-hula dances, gave luas (Hawaiian barbeques) and followed other old customs which were represented to gullible American congressmen as scenes of scandalous and highly improper pagan debauchery. In fact, the King and his sister, Queen Liliuokalani, were devout Episcopalians of the most proper Victorian character.

Another great rarity worthy of a four figure price. (Photo) ($1000-Up)

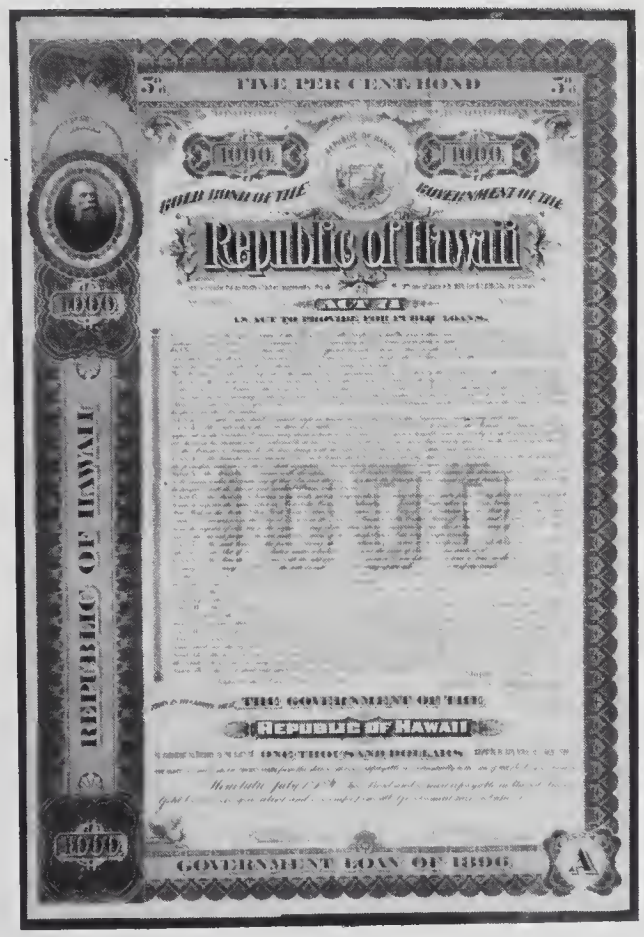


3786 **KINGDOM OF HAWAII** (1886). **$500.** 6% 10/30-Year bond, Cu, red, black. Small fold splits. ABN. POC.

Once again King William Lunalilo appears at the left; the royal arms at the right and Queen Kapolani on the coupons.

This bond was part of a $2 million issued authorized by Acts approved on September 1, and October 15, 1886. Note the reference to the King approving the issue in cabinet council, a clear indication that he was trying to revive his royal prerogatives in financial matters, independent of the legislature.

Another four figure rarity. (Photo) ($1000-Up)



3787 **REPUBLIC OF HAWAII** 1896. **$1000.** 5% 5/20-Year bond, Cs, green, black. Small edge tear. ABN. POC.

The vignettes are the Republican arms, minus the crown at the center, with President Sanford Ballard Dole, of the Dole pineapple and sugar interests at the left.

This bond was part of a $2 million loan which were to be issued to take up the old Kingdom's loans and also to be used for educational, public works, etc. Note the provision about legislative sanction being needed for each issue; this was a slap at the previous bond authorized by the King in Council.

The Republic took power in January 1893 after the royal troops were defeated by the U.S. Marines and a warship that intervened illegally at the instigation of the U.S. minister in Honolulu, who was subsequently recalled. (His aid had been secured in advance by the rebels). Efforts to have Hawaii annexed immediately by the U.S. failed because Grover Cleveland refused to make himself a party to this scandal. Annexation had to wait until McKinley took office.

A four figure rarity. ($1000-Up)

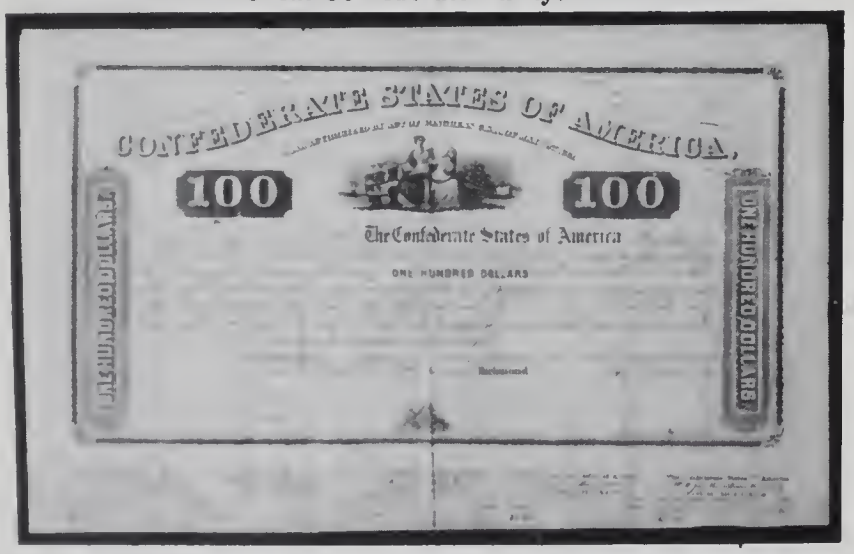
Great Confederate Rarity.



5020 Act of May 16, 1861. $100. (Cr.11). EF. (Photo) ($3000-6000)

The history of this bond, which was never issued is an interesting one. The Confederate Congress authorized, in effect, the purchase of produce with bonds. By the Act of August 19, 1861, this plan was cancelled, but John Douglas, the printer was not so advised. As a result, this bond, which is an Essay, was part of about 8,000 partially or completely printed. Subsequently, their destruction was ordered. To date, only five have appeared. Two bonds, the discovery pieces, turned up in Charleston, S.C. Both passed into the hands of a collector, who sold one to Grover Criswell. The Criswell piece, the inferior one, then appeared in auctions in October 1980, March 1981 and September 1987. A third piece was privately traded to a British collector in 1989 and a fourth piece sold as lot 1076, Memphis 1990 for a reserve of $8,000. This piece is the fifth known to us and is certainly the second best.

Although the size and the ten year period would seem to make this a bond, there is a small obligation at the top "receivable in payment of dues" which makes it evident that they were also meant to circulate. We are not aware of any issued pieces of this type.

In September, 1861, this bank sent three plates, minus the tints, to Richmond for use by the Confederate Treasury. The new firm of Leggett, Keatinge and Ball took the "A" positions of the 5-5-10-10 plate and produced the Type-32 and Type-23 notes. The bank language was scraped off the plate and the Confederate verbiage inserted in its stead. A must for the serious Confederate specialist.

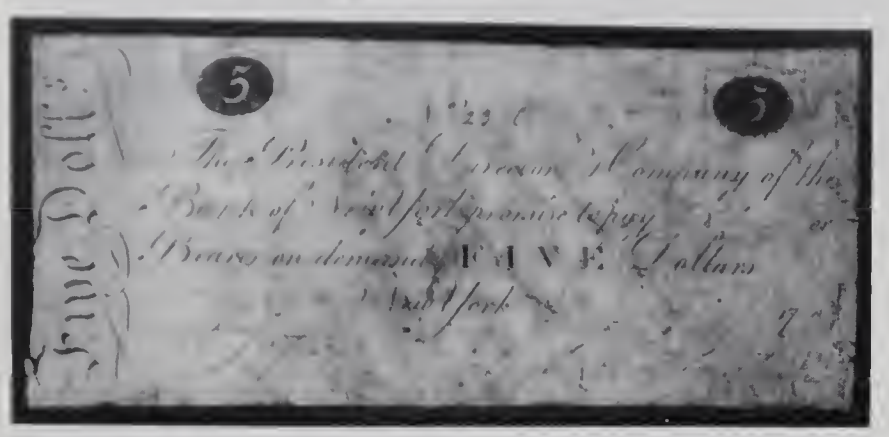
Rare Eighteenth Century Note



6317 BANK OF NEW YORK. **$5.** (G-70, or C-70). **Good,** multiple small body holes, pen cancelled. **(Photo)** **($300-Up)**

An extremely early note of the nation's oldest continually existing bank operating under its original title. It is very difficult to tell whether this note is genuine or not. Any note of this type is extremely rare, so that comparison with a real piece, presuming that one can be identified as such is practically impossible. In any case, this note, even if counterfeit is vastly rarer and more valuable than the price put in Haxby.
